**Stelco Inc. – Lake Erie Works  
Environmental Management System and Community Engagement Report  
January – December 2025**

Lake Erie Works (LEW) Coke Ovens Environmental Compliance Approval (ECA) No. 9855-BXGQD7 includes visible emission limits for coke oven doors, lids, offtakes, and charging and pushing emissions.

This Environmental Management System and Community Engagement Report summarizes information as required per Item 2 of Schedule B of this ECA covering the period January 1 to December 31, 2025.

**A summary of the information required by Schedule A Item 2.3 with respect to the notice(s) required to be given.**

There were no exceedances of the 30-day rolling average visible emission limits.

**A summary of the information required by paragraph 6 of Schedule A Item 2.9 with respect to the record(s) required to be made.**

There were four exceedances of the daily thresholds: two for offtakes, and two for oven door leaks. Operational adjustments for the offtakes involved applying sealant to the leaking offtakes and repacking seals. For the door exceedances, operational adjustments included cleaning goosenecks to reduce the pressure within the affected ovens.

**A summary of the information required by paragraph 7 of Schedule A Item 2.14 with respect to the record(s) required to be made.**

There were fourteen pushing emission threshold exceedances in 2025. Operational adjustments included cleaning the heating flues, correcting door machine faults that caused uneven heating, and adjusting the coke oven battery gas flow and flue temperatures.

**The minutes of the CLC meetings and any related follow-up actions.**

The minutes of the 2025 CLC meetings can be accessed through Stelco's website:
