

Meeting Notes

Stelco Hamilton Community Liaison Committee (CLC)

April 30, 2025 – Virtual Meeting

CLC Members in Attendance:

Julie Wedzinga, Kristin O'Connor, Manal Chaudhry

Other Attendees:

Stephen Burt (MECP)

Katie Chan (Stelco)

Kerry LeClair

Danielle Murphy

Welcome

Review and Approval of Agenda

The committee accepted them as presented. The committee also accepted the draft meeting notes of the previous meeting.

Coke Battery Performance

Katie provided a summary of the performance of the Hamilton Works coke battery operations for Q1 2025 based on the Method 303 environmental audits conducted on a regular basis. Coke battery audit results demonstrated compliance with all 2025 limits, with one operational adjustment conducted related to a daily threshold.

Stephen Burt from the Ministry of Environment, Conservation and Parks (MECP) commented on being happy to see Stelco's compliance continue as compliance is MECP's objective. Stephen also shared with the CLC that an additional MECP staff member has been trained in Method 303 and that his staff have also been on-site at Hamilton Works conducting audits with similar results as those recorded by Stelco.

Community Comments

There were no community comments/feedback.

Stelco shared that they are still considering the request to update the committee's terms of reference.

Adjournment

The next meeting is scheduled for Wed. July 16, 2025.
